

The Speaker For All Seasons

Indoors or out, multi-zone or second room, Polk Audio's Atrium All-Application Loudspeakers are versatile enough to deliver great sound anywhere your clients want it.

The rugged Atrium Series meets or exceeds stringent industry and military specifications for full exposure to the elements for years of reliable high performance sound anywhere in and around a home.

Polymer driver cones with butyl rubber surrounds housed in a watertight ABS cabinet stand up to Mother Nature and yet deliver great bass response. The dome tweeter (with a small but powerful neodymium magnet) broadly distributes high frequencies to cover large areas with high fidelity Polk Audio sound.

The Self-Powered, indoor-only Atrium 45p gives you the flexibility to take advantage of the "Multi-Room" receiver function, bringing high performance sound and remote volume control to extra rooms without adding extra amplifiers. (Simply run a set of speaker wires (or line level cables) from the main receiver, preamp or amp to the Atrium 45p for incredibly convenient sound.)

Put incredible sound... anywhere, with the versatile Polk Audio Atrium Series of All-Application Loudspeakers.

Features

- Outdoor models meet or exceed ASTM D5894-UV Salt Fog, Mil standard 810 Immersion and Mil standard 883 Method 1009 8 for salt and corrosion tests.
- Front panel volume control allows remote volume control without the need for an IR repeater.
- Built-in rustproof bracket gives you multiple mounting options and a full 90-degree rotation: aim them to deliver the best possible sound in a variety of locations.
- Rustproof aluminum grille has 55% open area for superior sound quality.
- Stylish sculpted front baffle and rounded enclosure look great, and minimize diffraction (sound reflecting off of hard edges) for more open and lifelike imaging.
- Available in either black or white.
- White speaker may be painted to match any room color.
- Gold plated 5-way binding post speaker-level inputs

Specifications

Frequency Response	60Hz - 20kHz
Recommended Power	10 - 100 w/channel
Impedance	Compatible with 8 Ohm amplifiers
Efficiency	90 dB
Drive Unit Complement	Mid-Woofer 1 - 5 1/4" Diameter (13.34cm) Dynamic Balance, mineral filled Polymer with rubber surround. Tweeter 1 - 1" Diameter (2.54cm) Soft dome with Neodymium magnet
Cabinet Size	10 3/4" H x 7 1/2" W x 9 3/8" D (27.30cm H x 19.05cm W x 23.81cm D)
Mounting Options	90 degree swivel bracket supplied
Inputs	5-way binding posts
Shipping Weight	16 lbs. Pair
