

The Easiest Way To Add Great Bass To Any Home Theater System

Enjoying home theater just became a lot more convenient, thanks to the new PSWi225 Wireless Subwoofer. And because it's wireless, there are no wires to run across a room; it's compact size (12 1/2" x 13" x 12 1/2") frees you to place the PSWi225 where it looks best. One power plug and you're done. The PSWi225 is the perfect complement to our passive SurroundBar® Speaker Series, the SurroundBar360°DVD Theater for those who want even more bass, or any of our RM and TS*i* home theater system packages. The PSWi225 is also a quick, easy way to add thrilling home theater bass to your existing flat panel TV sound.

Features

- **Can Be Conveniently Placed Anywhere In The Room.** The subwoofer's compact design allows it to be easily hidden away.
- **Connects In Minutes To Any Audio System.**
- **Floor Firing Wireless Powered Subwoofer** in a compact ported enclosure features a rugged long-throw Dynamic Balance® co-polymer driver with butyl rubber surround for maximum performance and reliability.
- **Computer-Modeled Flared Port Design** for maximum efficiency and output.
- **No Expensive Cables Required For Hookup.** Long runs of expensive cable are a thing of the past, because you don't need any cables.
- **2.4 Gigahertz Wireless Transmitter** connects to any system and allows you to place the PSWi225 anywhere in your listening area without the hassles of running wires.
- **Polk Digital Logic** makes set up even easier because the wireless transmitter's auto sensing function sends data for LFE or line level connection.
- **Measuring A Compact 12 1/2" W x 13" H x 12 1/2" D**, the PSWi225 never calls attention to itself, until you turn it on.
- **Built-In Subwoofer Power Amp With Active Crossover** offers the control you need for real home theater thrills and big, musical, accurate bass with any speaker system.
- **Powerful 100 Watt Amplifier** features adjustable low-pass crossover, phase switch and subwoofer volume control.
- **Non-Resonant Heavy-Duty MDF® Construction** with internal bracing for deep bass impact with superior detail, accuracy and musicality.
