

db Stands For Deep Bass

The next generation of mobile subwoofers delivers stellar bass performance without breaking the bank. Designed for power, accuracy and value, these new subwoofers bring spectacular bass to your vehicle regardless of the type of music you love listening to.

Available as components ranging from 8" to 12", or with an enclosure, we have a subwoofer to fit your needs. With awesome looks and killer performance, db Subwoofers are a perfect fit for your vehicle sound system.

COMPONENT SUBWOOFER FEATURES

- **Klippel Optimized Components** using a state-of-the-art Klippel Distortion Analyzer, Polk engineers were able to optimize the woofer's motor structure, voice coil alignment and suspension for the best possible performance, even at extreme listening levels.
- **Dynamic Balance® Composite Woofer Cones** feature tremendous stiffness-to-mass ratio. Lower mass means faster transients and finer detail.
- **High-Roll Butyl Rubber Surrounds** provide reliability in the temperature extremes of a vehicle.
- **Fire Retardant NOMEX® Inner Suspension** increases reliability while providing extended cone travel.
- **All Sizes Available In Single Or Dual Voice Coil** configurations for wiring flexibility.
- **Available Matching Grilles** that incorporate the awesome wheel spoke design Polk is famous for.

Subwoofer Enclosures

We now offer two models: the dual 12" db1222 for out-of-this world bass, and the single 12" db1212 subwoofer that goes just as deep and is the sub of choice when vehicle space is at a premium.

SUBWOOFER FEATURES

- **Tremendous Power Handling And High Efficiency** means these subwoofer enclosures can deliver massive quantities of bass.
- **Compact Dimensions** fit in virtually any vehicle. dB1212 is 17 1/4" W x 14 3/4" H x 17" Deep at the top and 18" Deep at the bottom and weighs 40 lbs. dB1222 is 32 3/4" W x 14 3/4" H x 15 1/2" Deep at the top and 18 1/2" Deep at the bottom and weighs 88 lbs.
- **Massive Slot Port** provides thunderous bass and allows greater air displacement than round port designs. Front loaded slot port for dB1222, Side vented for dB1212.
- **Extensively Braced 3/4" Trapezoidal MDF Enclosure** eliminates performance-robbing box flex.
- **Nickel Plated Heavy Duty Input Terminals** accommodate speaker wire up to 8 AWG or twisted pairs of 12 AWG.
- **Viscoelastic Isolation Damping** between the baffle and cabinet prevent any unwanted vibrations or buzzes when the system is driven hard.
- **Rugged Automotive Grade Black Carpet** provides an attractive and durable enclosure finish.
- **Heavy Duty Automotive Grade ABS Grilles** provide awesome looks but also protection for the woofers.
- **Paintable Grilles And Baffle** look great as is, or may be matched to your vehicle's color.
