

Introducing Studio Quality Sound For Your iPod®

Now you can enjoy your favorite iPod music downloads and renowned Polk Audio quality in an easy-to-use iPod sound system. The miDock™Studio is an elegantly simple audio player that's compatible with all iPod models. Plus, an AC power plug, as well as battery operation, mean you'll always have music where and when you want it.

- **Compatible With All iPod Models**—Using the Apple Universal Insert you can connect an iPod Mini, iPod Nano or any iPod including future designs. The iPod Shuffle connects through an auxiliary input.
- **(2) 3 1/4" Full Range Drivers And Ported Enclosure** for excellent bass performance—Great sound from a compact, easily transportable design.
- **Auxiliary Input** for use with any MP3 player.
- **Headphone Output**—your music anytime you want without disturbing others.
- **IR Remote Control**—6 button layout is ease and convenient.
- **iPod Connection To PC.**
- **Charges Your iPod When Docked**—When your iPod is docked and the miDockStudio is switched on, your iPod's battery is being charged.
- **AC Power Adaptor Or Battery Operation**—AC plug with worldwide plug adapters is supplied with the miDockStudio, and you can listen anytime, anywhere, when you install eight (8) D batteries (not included).
- **MSRP US\$: \$229.95.**

iPod is a trademark of Apple Computer, Inc., registered in the US and other countries.
