**The RM705 Complements Today's Stylish High-Tech Flat Panel TVs And Audio Electronics**

The new RM705 Home Theater System is a six-piece complete 5.1 channel system that presents a sleek, minimalist design while delivering impressively big sound. Heavy-duty, non-resonant composite enclosures feature an elegant, high-gloss finish that creates the ideal décor accent. Polk speaker technology ensures superior system performance, delivering rich, full-bodied, big speaker sound. Mount the speakers on shelves, or next to your plasma or flat-screen television using their flexible wall-mount brackets. An included cradle supports the center channel. The RM705 is part of our 700 Series, also available in 6.1 and 7.1 configurations.

### RM8 Wide-Dispersion Array Satellite Loudspeaker

The RM8 Wide-dispersion Array Satellite Loudspeaker ensures more dispersion pattern options for the utmost in placement flexibility. The satellite is offered with a center channel in 5-Pack, 6-Pack and 7-Pack Speaker Systems (subwoofer sold separately). These speaker Pack systems are designated as the 90 Series. A fourth speaker system, designated RM85, is a 5-Pack that includes two RM8 Wide-dispersion Satellites and two RM7 Satellites. RM8 Satellites can also be purchased individually (in black or white) to integrate with any RM700 Series configuration, so you can tailor the kind of surround sound you prefer.

#### RM8 Wide-Dispersion Array Satellite Features:

The RM8 Satellite creates a more enveloping, less localizable surround effect. Drivers are mounted on opposing baffles for a broader and larger front stage sound field and a more immersive and atmospheric surround field.

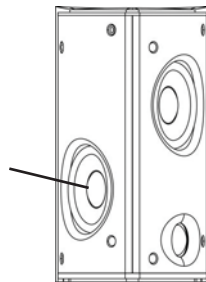

- **Dual-Driver Satellite Design** ensures more dispersion pattern options for the utmost in placement flexibility.
- **RM8 Satellite Speakers** are sold as “left” and “right” speakers for optimized performance.
- **Heavy-Duty, Non-Resonant Composite Enclosures** feature an elegant, high-gloss finish that creates the ideal décor accent.
- **Dynamic Balance Composite Driver Technology** delivers wide range response and low distortion for truly lifelike sound.
