

**Room Filling Surround
Without Filling The Room**

The SurroundBar®360° DVD Theater is a complete home entertainment system. It incorporates the enveloping sonic benefits of our SurroundBar SDA® technology and our patented PowerPort® bass venting technology with the convenience of a control console that is a DVD/CD player, amplifier and an AM/FM radio. The SurroundBar360°'s sleek, contemporary design and simple, single-cable speaker hookup makes it ideal for anyone who wants big, rich surround sound home entertainment without any of the hookup hassles of multiple speakers and wires.

- **Polk Audio's Patented SDA® Surround Technology** delivers a full 5.1 home theater sound from a single, 44 1/2" cabinet.
- **No Rear Speakers Are Required.**
- **PowerPort Bass Venting System** for superior clean, low distortion bass that you can really feel. No external subwoofer required.
- **15' Cable For The Absolute Easiest Hookup.**
No more tangled wires to string around a room.
- **Easy To Install On A Wall**, thanks to built-in key hole slots.
- **Two Sets Of Cradle Mounts**, high and low, give you more on-shelf positioning options.
- **Gloss Black Cabinet** matches all TVs.
- **Magnetically Shielded**, of course, for safe placement on or near TVs.
- **Remote Control** for complete control of all sources at your fingertips.
- **MP3 Playback** from USB Inputs.

PICTURE/DISPLAY

- **1080i HDMI** with high definition video up-conversion from any video input.
- **Faroudja DCDi2-480p, 720p, 1080i.**

The SurroundBar360° DVD Theater employs 8 drivers. A patented combination of signal processing and acoustical geometry produces the vivid three dimensional surround field that exists on the original recording. What you hear is essentially the same as if sounds were actually coming from all around and behind you.
