

A Big, Rich TV Image Deserves A Big, Rich Surround Sound—And No Rear Speakers

Sized for today's bigger TVs, the 51" 5-channel SurroundBar®50 creates a bigger more enveloping sound. The perfect complement to flat and shallow screen technologies, the Polk Audio SurroundBar50 delivers breathtaking all-enveloping sonic performance without the need for rear speakers. The SurroundBar50's unobtrusive design and color-coded hookup configuration makes it a welcome addition for anyone who wants the thrilling benefits of surround sound and none of the hassles. The SurroundBar50 represents more than a cosmetic evolution. It's also a sonic evolution of our very popular SurroundBar, with greater max SPL, front and rear SDA® Speakers and better performance from all musical sources.

If you're a minimalist, or maybe a little cramped for space, you'll enjoy that the SurroundBar50 needs no rear speakers to create its enhanced surround images. And while the SurroundBar50's delivers enough bass for your listening pleasure, many people will add a subwoofer to create a sound system that produces truly compelling sonic performance.

The SurroundBar50 contains 9 drivers, 3 tweeters and inputs for all 5 channels. Multiple drive units and a patented combination of signal processing and acoustical geometry serve to produce the vivid three dimensional surround field that exists on the original recording. What you hear is essentially the same as if there actually were sounds coming from all around and behind you.

Features

- **Polk Audio's Patented SDA® Surround Technology, Applied To Both Front And Rear Channels For A More Enveloping Sound**, delivers a vivid sound field from a single, 51" cabinet; No rear speakers are required.
- **Dual Front Ports** for superior clean, low distortion bass.
- **Simplified Color-Coded Hookup** with all 5 channels going directly from your home theater receiver to the SurroundBar50.
- **15' 10-Conductor Cable** is color-coded and clearly marked for easy hookup. No more tangled wires to string around a room.
- **Easy To Install** on a wall thanks to a simple wall-mount bracket.
- **Dual Cradle Mounts** give you more on-shelf positioning options, including in front of today's flat-panel TVs.
- **Wall Bracket** (included).
- **(9) 3 1/2" Dynamic Balance® Drivers and 3 3/4" Dynamic Balance Dome Tweeters** deliver clear, natural mid-range, high frequencies and lifelike imaging.
- **Aluminum Extruded Enclosure** eliminates cabinet resonance.
- **Anti-Diffraction Grille** and bezel helps create open, spacious imaging.
- **Magnetically Shielded**, of course, with neodymium motor structures for safe placement on or near TVs.
- **MSRP \$1099.95**
