| <ol style="list-style-type: none"><li>1) Determine speaker location. Be sure that it does not interfere with studs/joists.</li><li>2) Hold or tape the template to the mounting location.</li><li>3) Trace along the outside of the template.</li><li>4) Carefully cut a hole ensuring that it is no larger than the shape you traced.</li><li>5) Attach the speaker wires to the terminals on the back of the speaker. Use RED for the positive (+) wire and BLACK for the negative (-) wire.</li><li>6) Position the speaker and tighten the six screws until snug.<br/><b>CAUTION: DO NOT OVER-TIGHTEN SCREWS!</b></li><li>7) Install grille.</li></ol> | <ol style="list-style-type: none"><li>1) Déterminez l'emplacement. Assurez le dégagement adéquat des montants/solives.</li><li>2) Tenez ou fixez le gabarit sur l'emplacement déterminé.</li><li>3) Tracez le pourtour du gabarit.</li><li>4) Taillez l'embrasure. Assurez-vous qu'elle n'est pas plus grande que le tracé.</li><li>5) Connectez les câbles de h.p. aux bornes situées à l'arrière du haut-parleur. ROUGE = fil positif (+) / NOIR = fil négatif (-).</li><li>6) Installer le haut-parleur et serrez fermement les six vis.<br/><b>ATTENTION: NE SERREZ PAS TROP LES VIS!</b></li><li>7) Installez la grille.</li></ol> |
